NISHANT KUMAR

B.TECH STUDENT & DEVELOPER

Motivated B.Tech 2nd-year student with a strong foundation in C programming, Python, web development (HTML, CSS), and database management. Eager to apply problem-solving skills and technical knowledge to real-world software projects and internships.

PROJECTS & EXPERIENCE

Indian Farmers Assistance Website

Personal Project | Present

- Developing a dedicated web platform from scratch using HTML and CSS to provide resources and assistance specifically for Indian farmers.
- Focusing on creating a clean, accessible, and highly responsive user interface tailored to the needs of the agricultural community.

Social Internship Project

DBUU / Charitable Trust | Completed

- Planned and developed an awareness campaign focused on street animal welfare, tailored specifically for B.Tech students.
- Curated and presented rescue imagery and data to effectively communicate the initiative's goals to a large collegiate audience.
- Collaborated with a team of peers to organize the event venue and successfully manage project deliverables.

Database Management Modeling

B.Tech Coursework Project | Academic

- Designed comprehensive Entity-Relationship (ER) diagrams to model complex data structures.
- Implemented and tested database operations using PL/SQL programming to ensure data integrity and adhere to ACID properties.
